

# Document 03: Customer Packages & Service Offerings

**Project:** Natural Intellects School Management System (NISMS)

**Version:** 1.0

**Status:** Draft

**Purpose:**

This document defines the customer packages, service offerings, deployment models, upgrade paths, customization policies, and commercial considerations for the Natural Intellects School Management System.

This document serves as the bridge between the product vision and actual customer implementations.

---

## 1. Objectives

This document aims to:

- Define standard product packages.
  - Reduce excessive customization.
  - Standardize customer offerings.
  - Simplify sales processes.
  - Support future scalability.
  - Create clear upgrade paths.
- 

## 2. Product Packaging Philosophy

Natural Intellects shall follow the following principles:

---

### Standardization First

The company shall prioritize:

- Standard modules.
- Standard implementations.
- Standard support procedures.

Excessive customization shall be avoided unless justified by customer needs.

---

## Modular Growth

Schools shall be able to add additional modules over time without rebuilding their systems.

---

## Affordable Entry Points

The Foundation Package shall provide enough value for most nursery, primary, and secondary schools.

Customers should feel that the package delivers substantial operational benefits without requiring enterprise-level investments.

---

## Upgrade Rather Than Rebuild

Schools should be able to:

Foundation Package

↓

Additional Modules

↓

Enterprise Features

without losing historical data or changing platforms.

---

# 3. Foundation Package

## Target Customers

The Foundation Package shall serve:

- Nursery schools
  - Primary schools
  - Small secondary schools
- 

## Public Website Features

Included Pages:

- Home

- About Us
- Admissions
- Academics
- Gallery
- News & Events
- Contact Us

Optional Features:

- Downloadable admission forms
  - School calendars
  - Staff profiles
- 

## **Administration Modules**

### **Student Management**

Features:

- Student registration
  - Student profiles
  - Student promotion
  - Student transfers
  - Student archives
  - Student search
- 

### **Teacher Management**

Features:

- Teacher records
  - Subject assignments
  - Class assignments
  - Teacher contacts
- 

### **Class & Stream Management**

Features:

- Class creation
  - Stream creation
  - Student allocation
  - Class teacher assignment
-

## **Attendance Management**

Features:

- Daily attendance
  - Teacher attendance submissions
  - Attendance reports
- 

## **Academic Reports**

Features:

- Marks entry
  - Term reports
  - Printable report cards
- 

## **Fee Management**

Features:

- Student balances
  - Payment histories
  - Receipt generation
  - Cash records
  - Mobile money references
  - Bank references
- 

## **Parent & Guardian Management**

Features:

- Guardian profiles
  - Multiple guardians
  - Emergency contacts
- 

## **Announcement System**

Features:

- School announcements
  - Class announcements
  - Printable notices
-

## 4. Enterprise Add-On Modules

Enterprise features shall be optional additions.

---

### Parent Portal

Capabilities:

Parents may:

- View fee balances
  - View student reports
  - Access announcements
  - Track attendance summaries
- 

### SMS Integration

Capabilities:

Schools may send:

- Fee reminders
- Announcements
- Emergency notices

Potential integrations:

- Africa's Talking
  - MTN APIs
  - Airtel APIs
- 

### Library Management

Capabilities:

- Book inventory
  - Book borrowing
  - Return tracking
  - Student borrowing history
-

## Inventory Management

Capabilities:

- School assets
  - Supplies tracking
  - Store management
- 

## Hostel Management

Capabilities:

- Dormitory assignments
  - Bed allocations
  - Hostel records
- 

## Online Applications

Capabilities:

- Admission applications
  - Applicant tracking
  - Review processes
- 

# 5. Custom Development Policy

Natural Intellects shall follow the following rules:

---

## Standard Features First

If customer requirements match existing modules:

Standard implementations shall be preferred.

---

## Minor Customizations

Examples:

- Custom report cards
- Branding adjustments
- Additional fields

These may be included within project agreements.

---

## Major Customizations

Examples:

- Completely new modules
- Specialized workflows
- Third-party integrations

These shall require:

- Separate requirements gathering
  - Additional quotations
  - Dedicated timelines
- 

## 6. Hosting Models

Natural Intellects may offer different hosting options.

---

### Managed Hosting

Natural Intellects shall:

- Host the system
- Maintain updates
- Handle backups
- Provide technical support

Advantages:

- Lower technical burden for schools.
  - Easier maintenance.
- 

### Customer-Owned Hosting

Schools may choose to:

- Own infrastructure
- Manage hosting independently

Requirements:

- Technical personnel
- Maintenance responsibilities

---

## 7. Maintenance Services

Maintenance may include:

---

### Technical Support

Examples:

- Bug fixes
  - User support
  - Training assistance
- 

### System Updates

Examples:

- Security updates
  - Feature improvements
  - Performance enhancements
- 

### Backup Services

Examples:

- Database backups
  - Recovery procedures
  - Data protection measures
- 

## 8. Upgrade Paths

The product shall support gradual expansion.

---

### Foundation Package

↓

Optional Modules

↓

Schools should never need to migrate to a completely different system when upgrading.

Historical data must remain intact.

---

## 9. White-Label Considerations

The system should support school branding.

---

### School Branding Features

Examples:

- School logos
  - School colors
  - School contact information
- 

### Custom Domains

Examples:

schoolname.ac.ug

schoolname.sch.ug

---

### Public Website Branding

The website should reflect:

- School identity
- School values
- School culture

while maintaining platform consistency.

---

## 10. Pricing Philosophy

Natural Intellects shall prioritize:

---

## Value-Based Pricing

Pricing shall consider:

- Student population
  - Complexity
  - Required modules
  - Support requirements
- 

## Sustainability

Pricing must support:

- Maintenance
  - Future improvements
  - Customer support
  - Business growth
- 

## Avoiding Unsustainable Discounts

The company shall avoid:

- Underpricing projects
  - Excessive feature additions without compensation
  - Unclear project scopes
- 

# 11. Strategic Conclusions

The Natural Intellects School Management System shall provide:

- A strong Foundation Package for most schools.
- Optional Enterprise modules for advanced customers.
- Clear upgrade paths.
- Standardized implementations.
- Sustainable maintenance services.

The company shall prioritize long-term customer relationships over one-time software deliveries.
